Interpersonal

- Born in Auckland, New Zealand

- Confident in working well with others and a team player

- Eager to learn new skills and stay up to date with the latest technologies

Education and Achievements

- Bachelor of Science Degree in Computer Science, The University of Auckland, *2018*
  A grade in Principles of Programming, *2016*
  A grade in Principles of Computer Science, *2015*

- NCEA level 3 Merit Endorsement, Avondale College, *2014*

Computer Skills

- Java – Knowledge in the Java programming language, developing apps in my free time using Android Studio

- Python – Understanding some fundamental data structures and writing scripts to implement searching and sorting algorithms

- C#, .Net, MVC – Understanding of distributed objects, services and browser applications by developing a web application using Visual Studio

- HTML 5, CSS, Javascript – Demonstrated in a website designed from a prototype and my personal website jtpennell.gitbub.io which displays my portfolio

- SQL – Created databases and queries using Microsoft SQL Server Management Studio

Work Experience

- Sales Associate (EB Games), *March – Current*
  With my passion for video games, I currently work part time selling video game products

- Telemarketer (Academy Group), *January – February 2019*
  Outbound sales for ad space on various websites and publications, demonstrating my communication skills

- Speedlane Ambassador (WayDgo), *November – December 2018*
  Supervised those in the self-service lanes at various Gull stations which helped me develop my customer service skills
